- Two fields of apologetics:
 - (1) Classical apologetics.
 - (2) Cultural apologetics.
- The value of apologetics:

“Would you like to broaden and deepen your understanding of the Christian faith so as to more clearly and effectively explain and defend what you believe? Very simply, that is the purpose and the value of apologetics.”

“Apologetics can break down barriers by exposing erroneous arguments and irrational prejudices against belief in Christ, and by defending the historical and philosophical integrity of the Christian faith.”
